

Assignment 1.3 – The Principles Underpinning DevOps

Instructions

Research “The Principles Underpinning DevOps” and write a one-page essay of your findings.

Consider the following as you research the topic:

- Limit Work In Processes (WIP)
- Eliminate Hardships and Waste in the Value Stream
- Enable Optimizing for Downstream Work Centers
- Institutionalize the Improvement of Daily Work
- Transform Local Discoveries into Global Improvements
- Leaders Reinforce a Learning Culture

The essay must be substantive, contain at least two (2) secondary sources (scholarly journals, published books, etc.), and written in APA format.

There should be an introduction, a conclusion, and a developed body (generally at least a few paragraphs – at least 500 words). Points will be deducted for not meeting the specified word count requirements. Reference lists and in-text citations do not count toward the word count requirements.
